“Open Government”

Citizens have the right to access the documents and proceedings of the government to allow for effective public oversight.

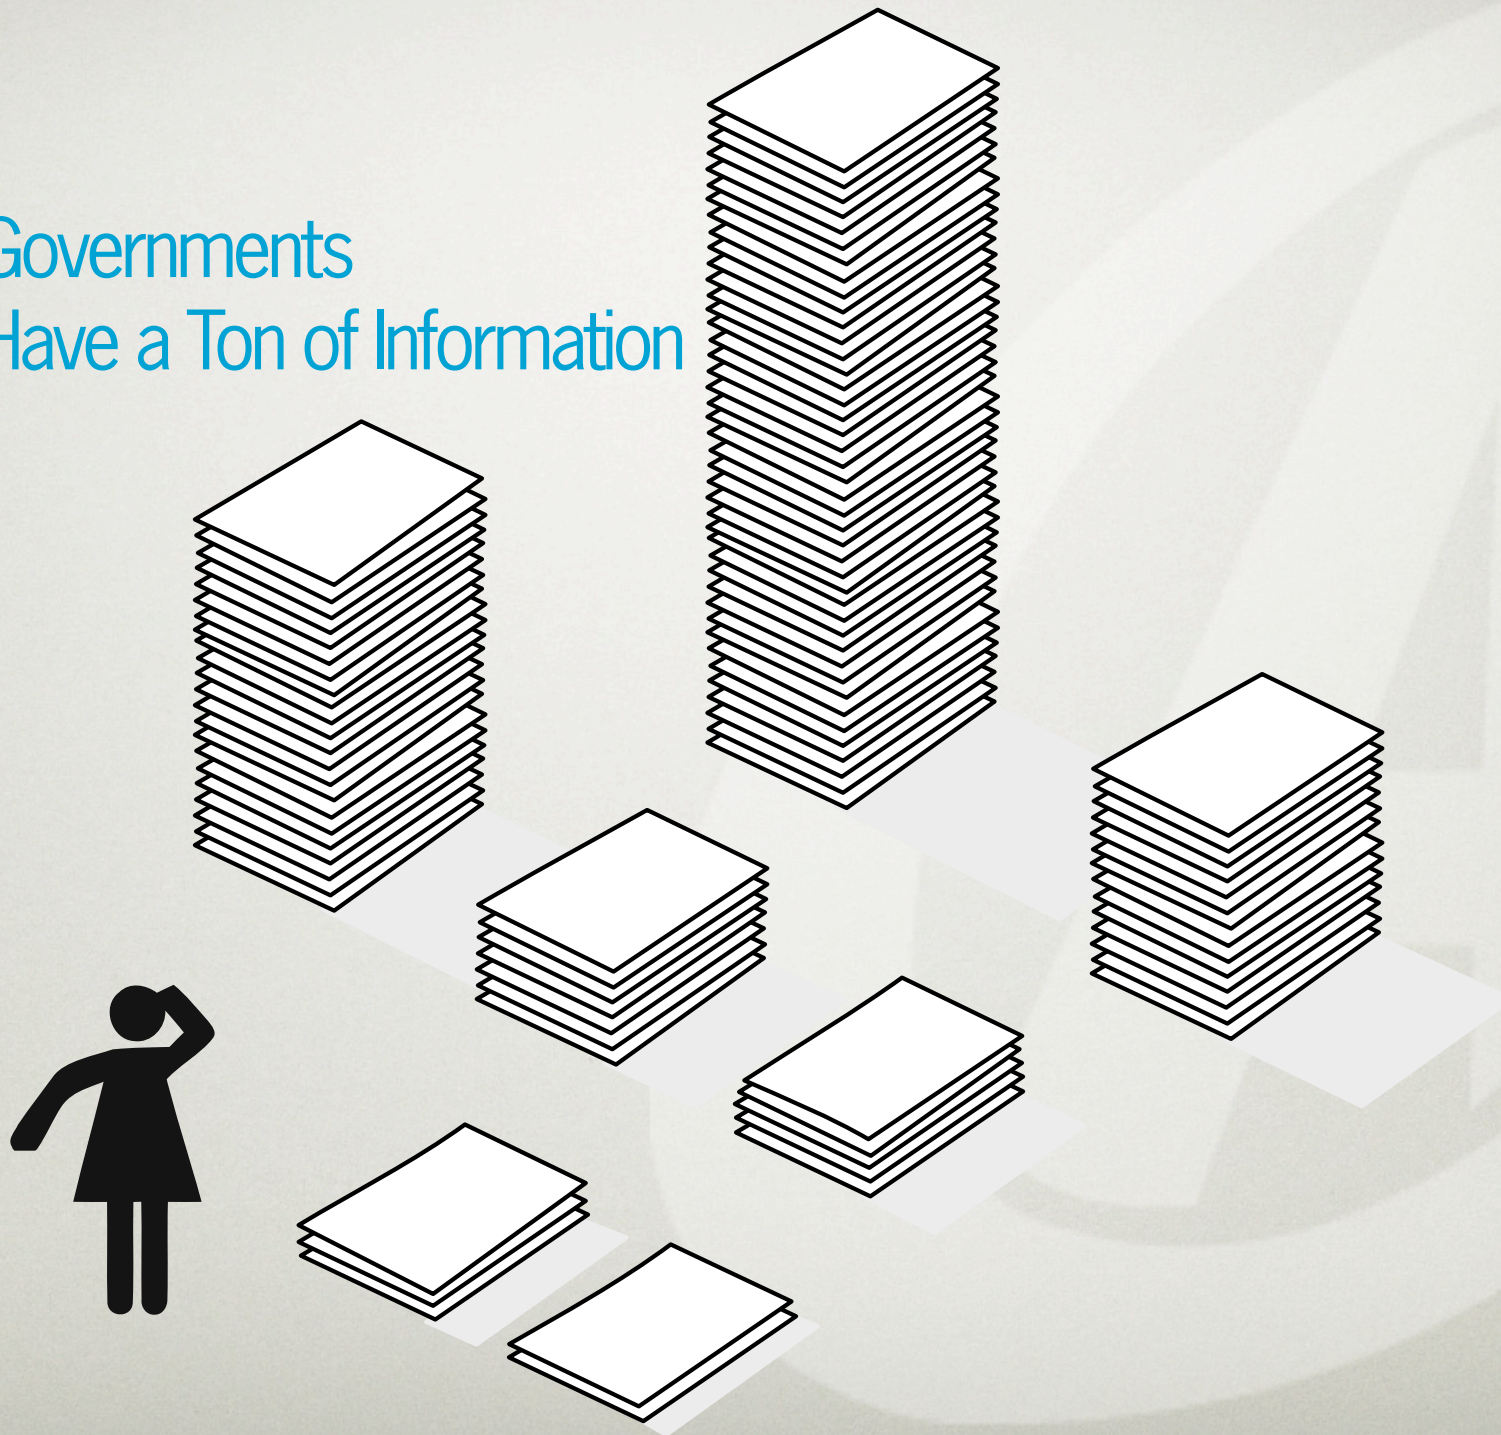

My Administration is committed to creating an unprecedented level of openness in Government. We will work together to ensure the public trust and establish a system of transparency, public participation, and collaboration. Openness will strengthen our democracy and promote efficiency and effectiveness in Government.

– PRESIDENT OBAMA, 01/21/09

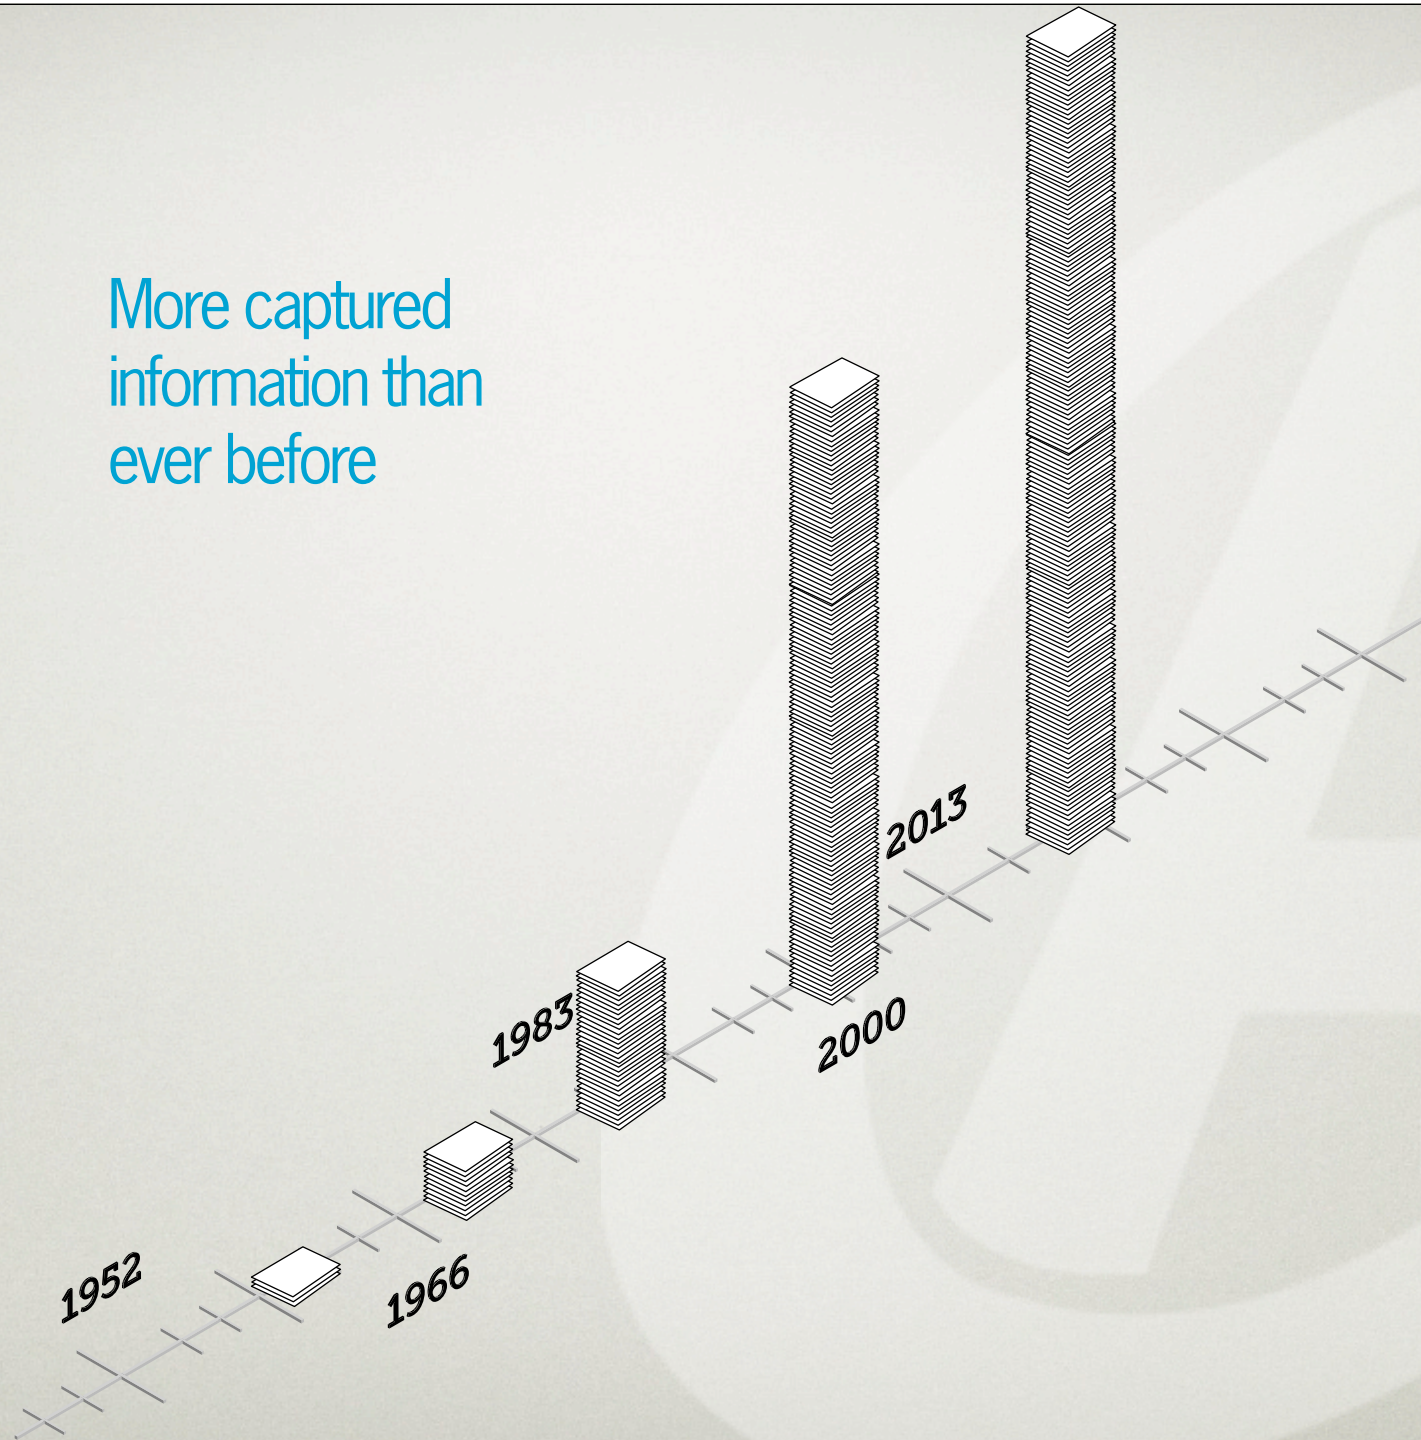

Freedom of Information Act (FOIA)
is a law that gives you the right to
access information from the federal
government (states have these too!)

Here's a Solution!
Lower costs.
More transparency.
Happier citizens.

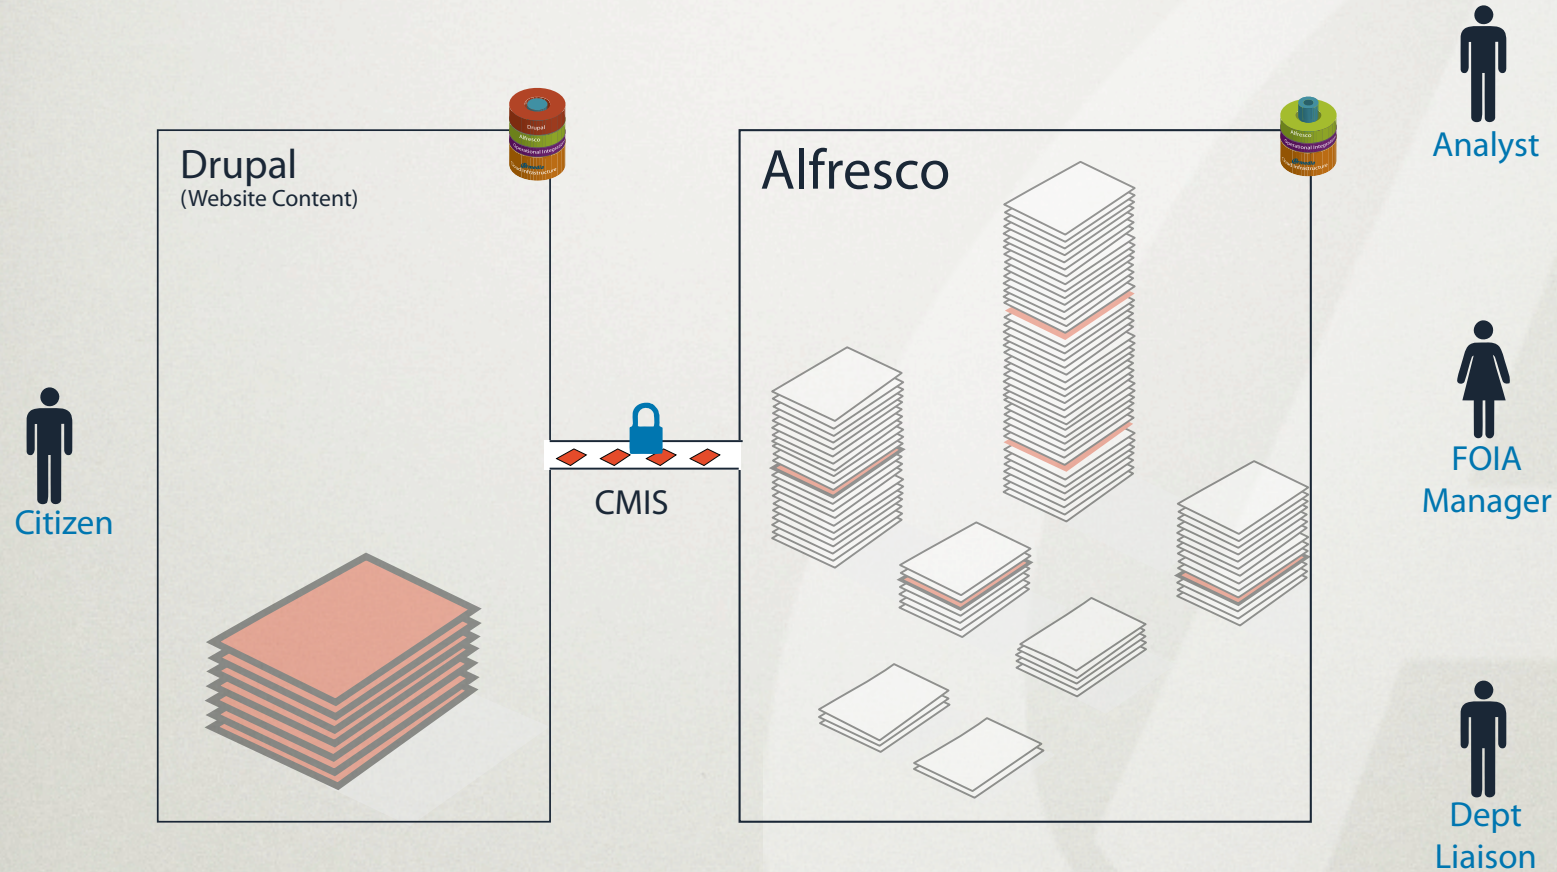

“Improving **records management** will improve performance and **promote openness** and accountability by better documenting agency actions and decisions. When records are well managed, agencies can use them to assess the impact of programs, to reduce redundant efforts, to **save money**, and to share knowledge within and across their organizations. In these ways, proper **records management is the backbone of open Government.**”
